What do you know about youth hostels?
What do you know about S.A.Y.H.A.?

The Place to Stay

Many young people traveling around the world are backpackers or students on a low budget. They want to see the world, but they can't afford to pay for regular hotels. So youth hostels are the perfect solution for travelers without a lot of money to spend. Today there are more than 4000 hostels in over 80 countries, and the Saudi Arabian Youth Hostels Association (S.A.Y.H.A) offers accommodations in 21 cities across the Kingdom.

The accommodations in hostels are inexpensive because guests usually share rooms and bathrooms. Most hostels have a laundry room, telephones, Internet connection, and a restaurant. Some hostels also offer cooking facilities, such as a kitchen with pots and dishes. Youth hostels are usually in interesting places where young people can learn about the local monuments, history, and culture. Some hostels are even inside old historic buildings, castles, and on boats.

Hostels are definitely the place for socializing. The guests, who are from different cities or countries, have the opportunity to meet other young people and share experiences. Many hostels organize tours and fun activities. For example, S.A.Y.H.A. holds sports and painting competitions, and there are also prizes for the best community projects. So when traveling, youth hostels are the best place to stay and make new friends.

After Reading

Answer **yes** or **no**.

1. **no** Young tourists are usually rich.
2. **yes** The rooms in youth hostels are usually cheap.

Perhaps he's chatting online with friends or watching a video from his family who lives far away. The Internet makes it easy to communicate. But web videos and webcams are much more than that. They are becoming popular tools for e-learning. Many teachers today show web videos in their classrooms. What better way to help students understand geography or science. And there are thousands of video clips to choose from—you can see active volcanoes, the latest developments in technology, or learn more about global warming. For some students and teachers, the Web is their classroom. More and more students are taking online lessons. Some language students, for example, learn on their own from websites, and others connect with their teacher online with the help of a webcam. There are also online schools like the Khan Academy with over 3,000 video lessons in math, science, economics, and history—and it's absolutely free. Do you want to know how to make a cheesecake or learn how to play golf? Free how-to videos online can teach you. Anyone can e-learn, and it's easy!

Jobs and Employment in Saudi Arabia

The assets of Saudi Arabia

Saudi Arabia has many assets. We have many advantages – our place, our society, our economy and our people. We will use these to build the best future for our country.

We build and support a culture of determination and achieving goals.

Employment goals for 2030

Among our goals by 2030: To lower the rate of unemployment from 11.6% to 7%. To increase women's participation in the workforce from 22% to 30%.

A vision for the future

Our vision is built around three themes: A good society, a strong economy and a determined nation.

A strong economy

A strong economy needs people to have good jobs and to work hard. We started a 'Job Creation Team' to help people find jobs. We assist new businesses that give people jobs and training. We improve technology and digital systems to support businesses and we give training and advice to people who are looking for jobs. We improved the education system to fit with the jobs that the economy needs.

Half of the people in Saudi Arabia are under the age of 25. This is a huge asset to our country and economy. We support young people in finding jobs they enjoy and that help the economy and society.

** Adapted from the text of the Vision Programs at <https://vision2030.gov.sa/en> and from the text that was drafted by the Council of Economic and Development Affairs as instructed by the Custodian of the Two Holy Mosques, King Salman.*

Before Reading

Look at the photos. What do you know about this hobby?

Sky HIGH!

Aeromodelling is an exciting hobby. It attracts people of all ages. They all have one common interest—the love of flying small-sized airplanes. Most people no longer fly the old elastic-propelled planes. They no longer fly planes that are attached to two cables and that fly in circles around them. Nowadays, with the advances in technology, the big thing is radio-controlled airplanes. These models fly like real aircraft and are an aeromodeller's ultimate dream. People control the movement of the planes through radio signals. Aeromodels can even perform aerobatics in the sky! Radio-controlled airplanes come in all shapes and sizes: from the Mini Flyer-plane with a wingspan of 9 inches (23 centimeters), to the huge passenger jet models with a 29 1/2-foot (9-meter) wingspan. The price of the airplanes varies from \$30 to several thousand dollars. There are different methods of propulsion, or ways to power the planes. These range from electric motors to expensive jet turbines. Jet-powered models are sophisticated aircraft. Their engines sound like those of full-size jet planes. These jet models can travel at speeds of 236 miles (380 kilometers) per hour—that's more than the top speed of a Formula 1 race car. Jet models always attract large crowds at aeromodelling competitions. At these competitions, fliers usually do a series of actions with their planes, including launchings, landings, and doing maneuvers in the air.

Aeromodelling is a popular hobby all over the world. In the United States, for example, the Academy of Model Aeronautics has more than 170,000 members in 250 model airplane clubs. The organization advertises the great things about aeromodelling as a sport.

LET THE GAMES BEGIN

Ask teenagers around the world how they love to spend their free time, and chances are they'll say video games. But no country can compare to South Korea for love of video games!

You walk around the COEX mall in Seoul on the weekend, and you look around. Teenagers are hanging out, people are shopping, families are eating in food courts, children are having fun... It's just like any other mall. And then you hear screams that are coming from the end of a corridor in the huge building. You walk in, and what do you see? Hundreds of young people are waving signs and chanting slogans. They are the fans of some of the nation's most famous sports stars, such as Lim-Yo-Hwan, Choi Yeon-Sung, and Suh-Ji-Houn. Their sport is something you don't normally find in the West. They are professional video gamers. People admire them for their skill in the science-fiction strategy game *StarCraft*. Next to these players is a panel of commentators and dozens of reporters. The players are not competing today. They are here for selection for a coming tournament.

There are two full-time video game television networks in Korea, and competitive gaming is one of the top televised sports. Thousands of fans attend the *StarCraft* tournament finals in stadiums.

But public video game areas aren't just for top players. South Korea has more than 20,000 public PC gaming rooms, or "bangs," which attract more than a million people a day. Video games are exciting and offer some real opportunities to solve problems and use strategic and critical thinking skills. Some parents actually encourage their children to play such video games as a way to relax, as an escape from academic pressure, and as a fun way to use brainpower.

6 Chant Along

Just Another Day

I wake up in the morning,
And I crawl out of bed.
I don't feel like movin'—
Got a whole day ahead.
I grab a cup of coffee
And make myself a bite.
My head is aching—
Didn't sleep all night.

Chorus

It's just another working day.
Nothing in this job to look forward to.
I want to get away—
Get away from this strife
I got to do something,
Something good with my life.

The boss calls me in:
"You're not doing your share.
You don't fit in,
And you don't seem to care.
Get your act together,
I've had enough.
Just one more chance
Or you'll be laid off!"

Chorus

It's six o'clock,
And it's time to go home—
Shut the laptop down
And hang up the phone.
I rush to the station
And stand on the train.
Tomorrow at eight
I'll be back again.

8 Reading

Before Reading

What do you know about international foods?
Discuss in a group.

Globalization of Foods

International fast-food chains are becoming more and more popular everywhere! You can have burgers, sandwiches, pizza, ice cream, coffee, and soft drinks in restaurants in the Americas, Europe, and Asia. In general, pizza in New York tastes more or less like a pizza in Italy or Hong Kong. However, there are some changes in the food according to the tastes and culture of the different countries. For example, in Japan, you can get a shrimp burger at McDonald's, and in KSA, the McArabia sandwich with chicken or beef is very popular.

Some famous brands had difficulty when they first entered certain countries. For example, in Peru, the most popular soft drink was and still is Inca Kola. Coca Cola couldn't compete against Inca Kola, so they

bought the factory. Now they produce Coca Cola and Inca Kola. In China, people usually drink tea, but coffee is becoming more and more popular. There are about 4,800 Starbucks coffee shops in the country.

In the past, most ethnic foods were just local. Nowadays with globalization, ethnic foods are also becoming popular everywhere. Pizza is originally from Italy, but today there are over 78,000 pizzerias in the U.S., and the number is growing. Asian food is found in food courts everywhere. And one of the most popular Middle Eastern foods around the world is shawarma, which is sometimes also called doner.

What do you know about calligraphy? Can you write calligraphy?

ART OF THE PEN: ARABIC CALLIGRAPHY

This summer, the Islamic Heritage Museum is proud to present a special exhibit called *Art of the Pen: Arabic Calligraphy*. Admire the beautiful art of Arabic calligraphy and Holy Qur'anic verse. Learn about the history of calligraphy and its development.

Calligraphy and the Holy Qur'an

The word *calligraphy* means "beautiful writing." Arabic calligraphy has beautiful lines and shapes. But the true beauty of calligraphy is that it is used to write the holy words of the Qur'an. That is how and why the art of Arabic calligraphy started.

The first Arabic system of writing (script) was very simple. Then, with the spread of Islam, there was a need for a more expressive form of writing to communicate Allah's words in the Holy Qur'an.

It was important to have a clear script that all the people of Islam could easily read and understand.

Styles

Today, there are six main styles of Arabic calligraphy. One of the oldest styles is *Kufic* script. It has straight, geometric letters that make it easy to cut into wood or stone. This is the script calligraphers used to write the first copies of the Holy Qur'an.

The other main styles are cursive and have connecting letters. *Thuluth* is a long and elegant script that is often used to write the headings of *surahs*, Holy Qur'anic chapters. It is also the script of the Saudi Arabian flag. *Naskh* and *Ruq'ah* are popular scripts that are common in printing and handwriting. They are generally smaller and easier to read and write. *Farsi* or *Ta'liq*, which means "hanging," is an old script that is sometimes used in literature. *Diwani* is a very decorative style that is often seen on greeting cards.

Before Reading

What does it mean to be "cool"? Discuss with a partner what things you can do to be cool.

So You Want to Be COOL

Are you worried about your clothes?

Are you nervous because you have to speak in front of the class?

Are you sad because someone said something bad about you?

Are you unhappy because you don't have many friends?

Teenage Express magazine offers some ideas on how to be cool.

- Think of your good qualities. List them. You're going to find that you have a lot of them!
- Take care of your appearance and your clothes. Keep your hair clean and well-groomed. Your clothes don't have to be expensive. They just have to look nice. Sometimes a comfortable, classic look is better than the latest extreme style.
- Compliment people and smile a lot. Meet new people and be friendly to them. Don't be shy. If you want to meet someone, go ahead and introduce yourself. People usually like an outgoing person.
- Be very nice to everyone. But if someone bothers you, defend yourself and say what you think. Never let anyone bring you down. Stand up for yourself.
- Ignore negative things people say about you. Be confident in who you are.
- Be yourself at all times, because trying to be someone else is not good. Being cool doesn't mean being someone you are not.
- Being cool does not mean being silly or stupid. So study hard and be smart. Learn useful information about a lot of topics. Your friends are going to respect and admire you for that.
- Be proud of your qualities and who you are. Remember, being cool is mostly a matter of attitude.

After Reading

Answer **yes** or **no**. Being cool means:

1. **yes** not worrying about what others think of you.
2. **no** wearing the latest fashion in clothes.
3. **yes** being friendly and sociable.

Before Reading

What do you know about the common cold and the flu?

Atchoo! IS It a Cold or the Flu?

When your nose is blocked, your eyes are watery, your throat is sore, you are coughing and sneezing constantly, and you are shivering, then you have influenza, or the flu. Or is it just a common cold? The symptoms of both a cold and the flu are very similar, and very often the two illnesses are confused.

People get both illnesses in more or less the same way. A person sneezing or coughing transmits the infection through the air. Sometimes people with the virus wipe their noses or eyes with their fingers, and then touch objects around them, such as a doorknob, a telephone, a keyboard, or any other everyday object. Other people come into contact with these items with viruses on them, and pick up the viruses that way.

Colds usually last for five to seven days and are caused by viruses. The body's own defense mechanisms need to fight the viruses. Unfortunately, there are more than 80 different constantly mutating rhinoviruses. So vaccination against colds is impossible. Medicines provide temporary relief from symptoms, but they cannot cure the cold.

The flu has the same symptoms as the traditional cold. Additional symptoms are a high fever and severe muscle aches and pains. The effects of the flu can also be far more serious. It can cause pneumonia and kill its victims. In the past, the flu killed more people than any other viral disease. For example, 20 million people of all ages died in the 1919 flu epidemic. It actually affected younger people more than old because their bodies didn't have defenses against the virus. Nowadays, there are vaccines for the flu that protect from some viruses. Unfortunately, new viruses appear all the time.

3 Reading

Before Reading

Look at the name of the food in the title of each section. What do you know about each food? Is it healthful or not?

Foods: TRUTHS AND LIES

Every day, new discoveries about food help change ideas that people had about certain items. Some food villains of the past are perfectly acceptable in today's diets.

Margarine

Margarine was introduced officially in the United States in 1950 as a substitute for butter. However, margarine contained trans fats,* which were worse than the saturated fat in butter. Nowadays, makers of margarine take out trans fats, and some brands include ingredients that help to protect the heart.

Eggs

Eggs can be a problem for people with high cholesterol, especially if the eggs are fried. For healthy people, eggs are a good source of protein and are good for the heart and brain. However, you shouldn't eat a lot of eggs.

Chocolate

People long associated chocolate with obesity, high cholesterol, and acne, because it contains sugar and saturated fats. Recent studies show that dark chocolate protects the heart, because it reduces the bad cholesterol and helps to lower blood pressure. Some nutritionists recommend one square from a bar a day.

Sandwiches

People said: "A sandwich isn't a substitute for a good meal." But some sandwiches can be a good healthy choice. One example is turkey or smoked salmon, with cheese, tomato, avocado, and lettuce on whole wheat bread, especially if you have the sandwich together with a glass of fresh orange juice.

Oils

Oils often have saturated fat, and generally they aren't good for you. However, olive oil is an exception. Olive oil increases the "good" cholesterol and helps to eliminate the "bad" cholesterol. In ancient times, people used olive oil as medicine.

Milk

Milk and other dairy products such as cheese and yogurt are considered the perfect foods for young and old. They provide the body with necessary calcium. Unfortunately, a large portion of the world's population cannot drink milk because they cannot tolerate the lactose in cow's milk. They need to find calcium in other sources.

*Trans fats result when liquid oils are made into solid fats. They are like saturated fat and raise the "bad" cholesterol level. Trans fats can be found in cookies, snacks, margarine, and other processed foods.
