Chorus
Hello everybody.
Welcome back to school!
You'll learn a whole lot more,
and you'll make some new friends, too!

The *All Sorts* are here again
to help you through the year.
We'll learn and create together.
We'll have fun, so have no fear!

Chorus

You'll learn new songs and games,
and read new stories, too.
Just wait and see what the teachers
have prepared for you!

3 The Video Game Tournament

Chloe and Lia are best friends. They play video games together once a week, try new sports, and sometimes cook together, too! They have a very special friendship. But one day, there was a problem. Chloe met a new friend at school, and Lia felt upset.
"Ava's lovely!" Chloe said. "I invited her to play video games with us tomorrow."
Lia was shocked. "But that's our time together! We always play on Wednesdays!"
"I know," replied Chloe. "She can join us, though. I think you are really going to like her!"

Lia arrived at Chloe's house. She found the situation frightening. She always has trouble meeting new people. She looked around. "Everything is so tidy! Your house is usually a mess, Chloe."
Chloe laughed. "I know, but we have a new guest. It's important to make an effort!"
Just then, Ava walked into the room.
"Hi! You must be Lia!" Ava said, shaking her hand and smiling.
Lia didn't smile back.

"What's wrong?" asked Chloe later. "Why are you not being friendly?"
"I thought I was your best friend!" replied Lia.
"You are always going to be a special friend, but we can be friends with Ava, too."
Lia thought about having two best friends. It sounded wonderful.
Ava was putting a new racing game on. It was Lia's favorite.
"Let's race!" she said with a smile.

Unusual Interests Around the World

People have different interests around the world. Some can be very unusual! Do you know about these?

USA (Texas)

Yarn bombing started in Texas, USA, to make messy streets look more beautiful. People crocheted colored yarn around trees and made interesting and wonderful designs. Now, it happens all over the world, but some people prefer trees without yarn and think the bright colors look horrible!

France

Do you enjoy traveling with toys? Did you enjoy it when you were younger? Toy voyaging is a popular hobby where people take photos of their toys in special places. Some people believe this started with a French movie, but now people all over the world do it.

Thailand

Most people use soap to keep clean. Some people in Thailand make amazing art from it! You need to be very careful so it's not messy! This is called soap carving.

Some people find pleasure in news bombing. They stand a few steps behind reporters in the street, trying to appear on the screen. Some make funny faces, while others show off tricks. This happens while the reporter is delivering serious news. News bombers can be found all over the world. Did you spot any in your country?

Sophie's First Day at School | Sophie's Singing | Sophie's New House

Sophie was moving to a new house. She was nervous about leaving her friends behind and living in a new neighborhood.
"The new house is enormous!" said Sophie's mom, smiling.
"It really is," said her dad. "And the architect designed it thinking about children, so there are some fun parts of the house that you will love." But when she told her friends about it, they said the house is haunted! Sophie didn't know what to think.

When Sophie got to the new house, she walked through a big gate in a huge entrance. It was enormous! "I'll have so much fun exploring all the rooms!" she shouted. She looked up and saw all the windows. "I wonder which one will be mine." Then she saw a slide coming out of one window and reaching down to the yard. It looked so fun! "I think that will be my bedroom window!" she said to her mom. There were games in the yard, and the wall was made to be painted on.

"I'll buy you lots of colored paints," said Sophie's dad. "Yes, Daddy! We'll paint something together," said Sophie.

Later, Sophie was moving boxes into the house. Suddenly, she heard some voices coming from the basement. Was there someone else there? She walked down slowly and saw three racoons painting the walls!
"Hello?" she said, but they screamed and hid! "I didn't know racoons were so unfriendly," Sophie thought, laughing.
"Beep, beep, beep," goes Sophie's alarm clock. She opens her eyes, and the sun is shining outside.
"Get up, Sophie. We'll buy the paint for the wall today!" What a strange dream Sophie just had. Could racoons really paint walls?

Young Architects – Redesigning a Bedroom

Last month's Young Architects competition winner, Kai, is going to design his dream bedroom! He spoke to our architect to draw the design he wants, and he wrote us a letter with his thoughts. What is he going to change? Read on to find out!

Hello! I'm so excited to have my dream bedroom in my house! I'm going to make some changes that I agreed to with the architect, and I'll plan some other changes later.

First, I'm going to change the measurements of my bedroom. It's going to be much bigger! We're going to put big cushions in the corner of the room, and I think I'll have a big screen to watch movies and play video games.

Instead of the two small windows, the builders are going to put in one big window. I'll be able to see the front yard and the entrance! My friend said I need a slide coming out of the window into the yard. But I won't ask for that because I won't use it.

Right now, I have an empty closet in the corner of my room. The builders are going to change it into a secret space just for me. Will it be big enough to put a fridge in there full of my favorite food? If not, I'll put another screen in there.

The builders are going to start the changes next week. Will they finish before my birthday? I hope so! It's so exciting! Thank you!

1 Do you think buildings stay the same forever? Why or why not?

2 Do you think buildings will be designed in the same way in the future? Why or why not?

No. Buildings are getting taller. The text mentions the Jeddah Tower, which is planned to be over 1,000 meters tall.

No. Designs are changing. Architects are making stadiums more attractive and designing new city homes to be environmentally friendly.

...football World Cup, host ...e the stadiums. Saudi Arabia will host the World Cup in 2034. Architects won't always build new stadiums, but they will improve the ...builders ...g they will always do is change the front of the stadium to make it more attractive.

JEDDAH TOWER

Jeddah Tower may become the tallest building in the world! The tower will be more than 1,000 meters tall when it is completed. Can you believe its measurements? Nobody lives there yet because builders are working on it. The architect who designed the tower chose very strong, modern materials, like concrete, steel, and glass. The layout has space for homes, shops, and offices.

MODERN CITY HOMES

Cities are going to get bigger as more people move to live in them, so architects are designing city buildings that won't harm the planet. One example is the Farmhouse. It will be made with natural materials, and people will be able to grow their own food instead of buying it from grocery stores. It will also treat and use rainwater for washing and watering the plants.

The article is about potential future jobs in the year 2040, especially those involving new technology and robots.

What job are you going to do in 2040?

because many of the jobs you might do when you grow up don't even exist now. We interviewed different **specialists** and asked them about jobs in 2040. Are we going to have **receptionists**, **journalists**, or **scientists** in the future? Keep reading and find out.

Are you interested in food? In 2040, food engineers are going to be popular. They are going to create and design the food we might eat. That's strange, isn't it? In the future, we might eat more processed food and food that is going to be modified at its molecular level. It's incredible, isn't it?

Another option you may consider is becoming a robot **therapist**. Yes, you read that right. In the future, we are going to need therapists for robots. As a robot therapist, you may have to talk to robots, understand their problems, and give them advice. Robot therapists are going to be like **psychologists**. You can't imagine a robot talking to a therapist, can you?

Finally, would you consider managing robots? Specialists say robots are going to need managers, so you may consider a career as a robot manager. It's going to be similar to what managers do now, but with robots. It's strange, isn't it?

As you can see, there are many new jobs you might do in the future. What do you think you may do? Would you like to be a food engineer, a robot therapist, or a robot manager? Leave your comments below.

1 It's easy to decide what to do in the future. F
2 Specialists gave the information presented in the article. T
3 We might eat more organic food in the future. F
4 Robots are going to be therapists in the future. F
5 Robot managers are going to do the same job that managers do now. T
6 There won't be many jobs in the future. F

1. Which job from the article would you like to do? Why?

I would like to be a food engineer because I enjoy science and creating new things. Designing food for the future sounds fun and useful.

2. What other jobs do you think people may do in the future?

In the future, people may work as space farmers, robot teachers, or time data analysts. Technology will create many new kinds of work.

3 An Experiment in Cooking Class

Layla arrives at her cooking class, excited to experiment. She puts her ingredients on the countertop ready to bake.
Layla's friend, Thelma, looks at her strangely. "Why did you bring vegetables to class?" she asks. "You know we're baking cookies, right?"
"Sure!" replies Layla. "My cookies will be the best!"
"You'd better not put any broccoli in your cookies!" Thelma continues, sticking out her tongue.

Layla tries different flavors. First, she puts in garlic, but a horrible smell fills the classroom. "That was a mistake," she thinks. She puts some new flour and butter into a bowl, this time with onion.
"What's that smell?" asks the teacher. "You should try carrots."
Then Layla remembers a carrot cake she ate once. Carrots can be in sweet snacks! But she looks at the clock. Only 15 minutes left! She'd better be quick!

Layla fetches the ingredients again and puts in some carrot. She puts her cookies in the oven and waits. A sweet smell starts to fill the classroom, and everyone is interested! When the cookies are ready, she gives everyone a bite.
"You should sell these!" says Thelma with cookie around her mouth.

Food and Sports: Dos and Don'ts.

Everyone knows people in sports should eat healthily to stay strong and full of energy. We asked a football player and a tennis player what they think.

Do:

1 You should drink lots of water. Water is good for your body and keeps you awake. It also helps when your head hurts! If you don't like the taste of water, mix in some fruits or herbs.

2 You should eat enough fruit and vegetables. If you want a snack, you can cut up some carrots or apples.

3 You should use fresh ingredients. They taste better and are healthier!

Don't:

1 You shouldn't skip meals. If you can't eat a full meal, make a small snack.

2 You'd better not eat after 7 p.m. because you won't sleep well. Plan your eating well. If you are still hungry after 7 p.m., eat some fruit or bread and honey.

3 You shouldn't eat meat that smells bad. Old meat can make you sick. If you don't like the smell, you'd better throw it away!

Healthy Eating: The Best Kind of Diet

The best kind of diet is a balanced one. That means you shouldn't just eat salads. You'd better eat a bit of everything if you want to stay healthy. See below the kind of food you should eat.

Vegetables and Fruit
Your plate should be mostly fruits and vegetables. If you don't see a lot of colorful vegetables, add more! Vegetables taste great if you cook them properly. Fruits are sweet and make a great dessert!

Starches
You'd better check that you eat enough foods like potatoes, pasta, and rice. These give you energy. If you don't have enough rice, you can have a sandwich with bread! You shouldn't put lots of butter on the bread.

Dairy
Dairy products include milk, yogurt, and cheese. You should have some of this in your diet, but not too much.

Proteins
Proteins include fish, meat, eggs, and beans. You'd better have some in every meal if you want to be strong. If you don't eat meat, eat beans or eggs instead!

Fatty Foods
Foods made of flour, butter, and sugar are fatty foods. You can have small amounts, but not too much. Sweet food often tastes great! But it doesn't make our body healthy. If you want a sweet snack, eat some fruit and yogurt or a little bit of chocolate.
